

Michigan Math Club

Meeting [virtually](#) for Fall 2020
Thursdays at 4pm EDT

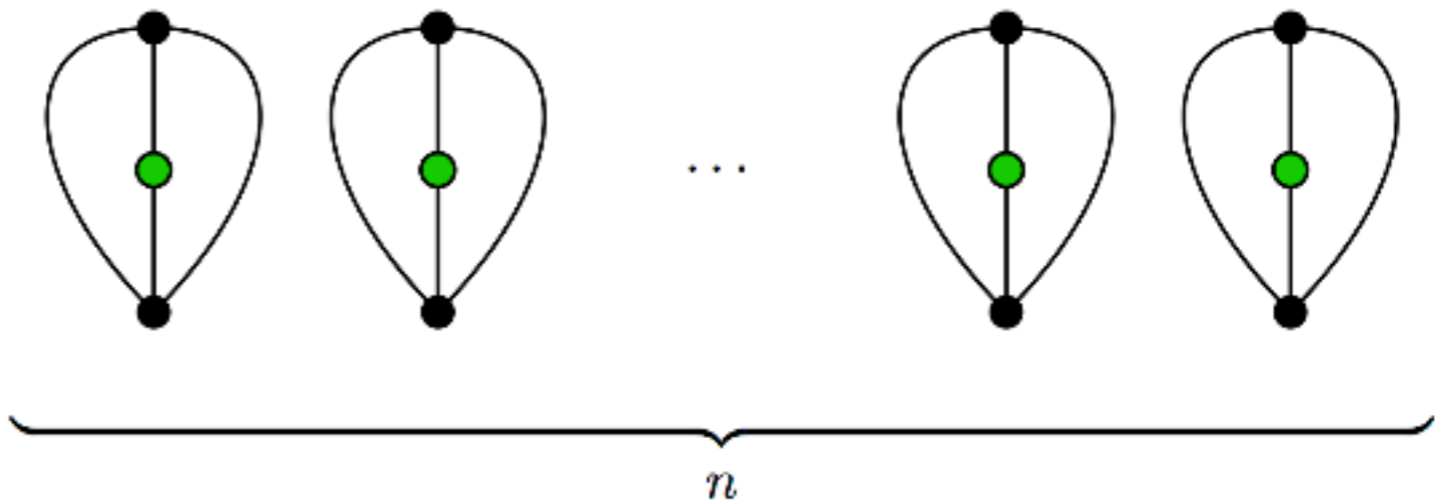

Sprouts vs. Brussels Sprouts

Chaya Norton

22 October 2020

stick around after
the talk for
the info session
about grad school!

We will introduce two games whose rules vary only slightly. Amazingly the properties of the games are wildly different. There is topology involved and pictures of bugs. We will present an open conjecture -- maybe one of you will think of a new way to approach this problem.
