Michigan Math Club

Meeting <u>virtually</u> for Fall 2020 Thursdays at 4pm EST

Learning to code with FRACTRAN

Nate Harman University of Chicago

19 November 2020

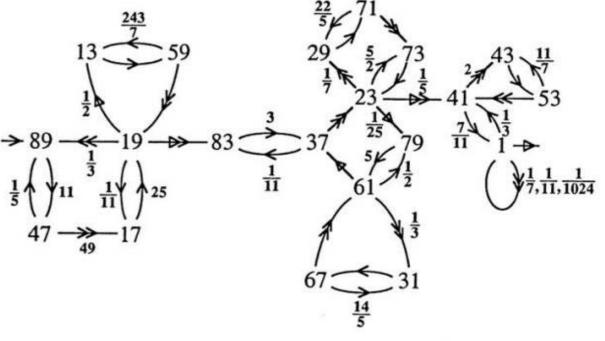

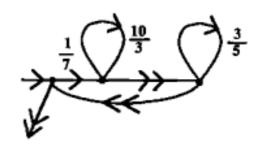

Figure 3. A FRACTRAN program for digits of π .

Why learn Conway's delightfully silly fraction-based programming language?

- "Only FRACTRAN has these star properties:
- Makes workday really easy!
- -Gets those functions really clean!
- -Matches any machine on the market!
- -Astoundedly simple universal program!" Jo

- John H. Conway
