

Michigan Math Club

Thursday at 4pm in EH1360

Pizza and pop outside afterwards!

Slide rules rule!

Martin J. Strauss • 30 September 2021

A slide rule is an analog device that multiplies numbers by adding their logarithms. We'll see how to multiply numbers in the reals and complexes. No electricity or wifi is needed—make one before the zombie apocalypse! Mark the edges of your note card before your next exam!
