

Michigan Math Club

Thursday at 4pm in EH1360

Pizza and pop outside afterwards!

From Archimedes to Cheerios

Guanhua Sun • 14 October 2021

We will follow Joseph Keller's work of extending Archimedes' principle of buoyancy to a partly submerged body. This will help us understand how water striders move on the water or how Cheerios interact on a bowl of milk before you eat them.

Feel free to get hungry!
