Thursday at 4pm in EH1360  
Pizza + pop outside afterwards!!

## What is a moduli space?

**Lena Ji**

26 October 2023

A *moduli space* is a geometric way to parametrize objects. In this talk, we'll introduce the notion of moduli spaces, and we'll illustrate this with several concrete examples (including explaining how a zoo map can be viewed as a moduli space). No prerequisites will be needed!
