MATH 115-018 QUIZ 1

1. **Grading Policy**: How do the things in the *section component* of your grade affect your final grade in the course?

2. **Gateway**: How does the gateway test affect your grade if you don't pass it?

3. Suppose the amount of homework (in tons) as a function of time t spent in college is linear, and that at $t = 1$ (one semester in) the amount is 1.2 tons and at $t = 5$ it is 1.8 tons. Find the linear formula the amount of homework, h as a function of time t.

4. What are the *slope* and *vertical intercept* of the function you found in (3)?
