

Math 615, Winter 2012

Instructor: Mel Hochster
Office: 2072EH
e-mail: hochster@umich.edu

A tentative version of the lecture notes for this course are available as a .pdf file from the Web Page for this course <http://www.math.lsa.umich.edu/~hochster/615W12>.

Grades will be based on problem sets: these will be distributed, roughly, every other week. There will be approximately 25–30 problems in total. There will not be any exams. Joint work on problems is permitted, but this should be indicated.

Office hours are MWF 3:00 – 4:00 in 2072EH or the Common Area, and by appointment. The hours M 8:30 – 9 and TuWThF 8:10 – 9 in Espresso Royale are usually available — it is best to let me know ahead of time.

Please do not leave homework or other material at my third floor office. Use the plastic box on the door of my second floor office or give the material to one of the staff in the second floor offices.

I am usually quick to answer questions by e-mail.
