

**Workshop on L-functions, Galois representations and Iwasawa theory
May 17-22, 2011**

Transportation from the Lamp Post Inn to the workshop venue.

We have arranged for buses to take participants from the Lamp Post Inn to the workshop venue in the morning and return trips in the evening. (If you prefer walking, this is a rather pleasant 40-45 minute walk through some rather pretty neighborhoods.)

- **Mornings:** Every morning at 8:30am, two buses will pick up participants from near the Lamp Post Inn. The pick up will take place at the turnaround on Manchester Rd which is about a 2 minute walk from the hotel. Please see the google map on the conference webpage for more detailed directions. The buses will drop off participants on N. University Avenue, on the north side of the Chemistry building.
- **Evenings:** Every evening, except on the 20th and the 22nd, one bus will do a return trip at 6:00 pm. In addition, there will be two more return trips, one at 8:00 pm and one at 8:30 pm. This will allow participants to catch dinner in town before returning to the hotel. Pickup will be on N. University close to the morning drop-off location.
- **Special schedule on the 20th evening:** On the 20th evening we have a banquet from 7:00-9:00pm at the Michigan Union. Since almost all the participants will be at the banquet we will not do a 6pm run that day. Instead we will have one bus do a return trip at 9:30 pm from the Michigan Union and come back for another return trip at 10:00 pm. Pickup will be on State Street in front of the Union.
- **Special schedule for the 22nd:** Will be announced soon.
