## Math 285, Section 002 Honors Analytic Geometry and Calculus III Course Information Fall, 2000

Instructor:	Robert E. Megginson (Bob)
Office:	4076 East Hall
<b>Office Phone:</b>	936-0155
Office Hours:	10 Monday 1:30 Tuesday 11 Thursday and by appointment
Text:	Calculus, 4th ed., Stewart, Brooks/Cole, 1999

- 1. **Material covered.** This course will cover most of Chapters 11 and 13–17 of the text, with the goal of reaching the big theorems of multivariate calculus in Chapter 17.
- 2. URL. The web page for this section is located at http://www.math.lsa.umich.edu/~meggin/math285. It will probably not be up until September 11 or a little later.
- 3. Grading. Your course grade will be based on the following:

Two in-class major exams:	20% each
Final exam:	20%
Homework:	20%
Quizzes:	10%
Class participation:	10%

- 4. Use of books, notes, and calculators on quizzes and tests. They can't be used. In short, all tests are closed-book tests with no calculators.
- 5. **Excused absences.** An excused absence from a test will be given only when the absence is truly unavoidable and beyond the student's control. In particular, travel plans are not grounds for an excused absence. If you have advance warning of a situation that will cause you to miss a test, please discuss it with me first so that you know the absence will be excused.
- 6. Quizzes. None are dropped.
- 7. **Class participation.** There will be in-class activities that will be an integral part of the course, so attendance and participation in these activities is important. This component of the grade reflects this.
- 8. Math Lab. The Math Lab in B860 East Hall has qualified tutors and instructors eager to help you with the material of this course. It is open Monday–Thursday 10:10 a.m.–4 p.m. and 7–9 p.m., Friday 10:10–2 p.m., and Sunday 2–4 p.m., beginning Monday, September 11. The Math Lab closes the last regular class day of the term, and so is not open during final exams. There is no charge for this tutoring service, and no appointment is necessary.
